Who's Your Tailor?

BOSLET!

IT'S A MAN'S DUTY

to dress well; he owes it to society and himself. If he should give up every pleasure in order to be well clothed, he would be the gainer by it. A well-dressed man is usually a successful man. People listen to him respectfully, he has more chances in life than a shabby fellow. The men for whom we make clothing are well dressed in every sense of the expression. Style and fit are faultless; workmanship perfect, prices low.

The Connelville Surcharge.
The action of two of the three Board of Auditors, in purchasing the members of the Town Council with \$1.77 exonerations on the 1901 duplicate of a distressingly poor Democratic tax collector, is admittedly a purely technical act.

It is not alleged that the members of the Town Council profited individually by this action, or in fact that there was anything morally wrong about it, but the refined consciences of the auditors who signed the report would not permit them to do otherwise because the minutes of the Town Council do not contain the list of exonerations.

The members of the Town Council are to be put to the test and trouble of defending a suit for the money in court because of this inadvertent omission, for making a businesslike settlement of this old claim, which had been hanging for years, they are to be punished. The public will be pardoned for suspecting an underlying motive.

The Borough Auditors should have been broader than this, and it is a pleasure to note that at least one of them, namely Edgar J. Smith.

The News has striven earnestly but ineffectually to make political capital out of this surcharge. It sees in the circumstances official mismanagement, such gross lack of good public service as demands a change.

Whatever the faults of the Republican administration of Connelville, its affairs have been, unfortunately to duty has not been one of them. Gruffing has been a stranger to the City Hall. Honesty has been the policy of the Republican government. The people of Connelville have no desire to return to Democratic rule and Democratic methods. We need not say why.

The record will explain.

Connelville at all times a full-fledged city of the third class next year with a full complement of city officers, including a City Controller, who will take the place of the Borough Auditors and audit the accounts of the city as they are created in other wards. He will pass upon bills before they are paid and not long after payment. He will be a protection to the Councilmen and other officials who authorize expenditures and not to the city itself.

It seems that the change does not come too soon.

The executive officials of the H. C. Truck Company are at present around and around inspecting the company's field operations. Not a plant nor a detail of their notice. Their inspection is of the kind that inspects. This is the sort of management that makes good.

Over a year and then Fayette county covers a horse. Some of them get small and some do not.

Labor continues to enter its protest against the Democratic tinkering with the tariff, and especially the proposed reductions in the metal schedule, which are ill-considered and are being unopposed by intelligent information on the subject.

The License Court stood pat.

Colonel Henry Waterson is nothing if not polite. He does not hand Colonel Roosevelt a membership card in the Annals Club, but he charitably excuses his utterances on the ground that he is as "mad as a March hare." It is evident to the simple mind that Colonel Roosevelt is mad, in fact, just now, very mad.

This section is threatened with Dunk and tree planting. Both are good. Welcome, three welcome!

The Panama Canal is nearing completion and the master minds which planned and built it agree that the most urgent present need is the organization and training of an operating force. It is a huge machine, but its mechanism is too delicate to trust in green hands.

The incendiary is an undesirable citizen.

The Connelville public schools have increased, but the school board will try to vary them with the same rate of taxation. It is better in the administration of public business to have a small deficit than a big surplus. The one demands economy; the other invites extravagance.

Comment is in light.

Mount Savage is booked to surrender to the Western Maryland about May 15th.

The Fayette county Probationers are also getting on their fighting clothes. Wait 'til the Water Wagon gets up steam.

The Chamber of Commerce has a gratifying railroad membership. Connelville is with her railroads and her railroads are with Connelville. Every intelligent and progressive community should aim to establish and maintain this relation with its transportation interests.

Summer baseball plans are numerous in the Connelville city region, and the athletic glory fair are beginning to show by symptoms.

The Marconi management is in almost as bad a fix as far as the support of this detail is concerned.

"The Connelville Courier insists that Connelville is progressive in all but politics. Well, that is a great fact, and we would suggest that Connelville politicians, editors and people ponder over their knee joints with four or five minutes and then up on the Progressive Wagon before it is too late," says the highly elevated and

consequently highly elated Canon-burg Notes. We have been riding on the Republican automobile. It is true that the machine has just punctured a tire, but it won't take long to pass the P. W. after we make repairs.

The Western Maryland is accused of "leeching" on the West Side. The Western Maryland will, however, be good and get back to the mark.

The Ripley glass plant in South Connelville has evidently been a success, it is preparing to enlarge.

G Spring has given us green grass and cheaper milk, even if the deal has been a little raw otherwise.

It will not thrive on hall and foot.

With a street clock on every corner and none of them agreeing upon the time, the timely work of The News will be properly appreciated.

May Prevenge Spankings.

Johnstown Leader.
The postmaster of Connelville has issued an order prohibiting the handing out of mail through the general delivery to persons particularly young people of both sexes whose residences are known. He is satisfied from an investigation that much clandestine correspondence which leads to evil is carried on in that way. Hereafter letters for minors will be delivered to the parents where that is possible, as it will be in most cases in a town the size of Connelville. The chances are that some dangerous romances will be broken up and perhaps a few wholesome spankings administered.

SHIFTING OF LOANS INCREASES RESERVES

Rates on Money are Inclined
to Advance in World's
Markets.

SPECULATION CETS FIGURE

Both in England and Germany Large
Commitments are Noted—Fair Pub-
lic Interest in Stock Market—Await-
ing Report From the U. S. Steel.

Special to The Courier.

NEW YORK, April 27.—The in-
crease in bank reserves has been
caused, to a great extent, by the
shifting of loans. This is not a
healthy monetary condition—
not as if reserves had increased
through a normal increase in deposits.
In the world's money markets this
rate in both London, Paris and
Berlin have advanced. Although New
York rates have been lower than in
other countries, money is not to be
had freely at the present time. The
advance in rates in Europe in the re-
sult of large speculative commit-
ments, particularly in Germany, where
in England a wild boom in such
issues as Wireless Shares is now going
on and London is in our market
bidding 3 1/2% for 30-day loans. At
home stocks are advancing from day
to day. All this is putting a great
strain on the banking interests, and
increasing as our May interest and
dividend payments will aggregate
\$95,000,000, a sharp advance in cur-
rency is not to be wondered at. The
rate of the month. However, call money
could easily advance to even 5%
without having any special signifi-
cance. The rates charged for time
loans is the best standard by which
to judge future monetary conditions.
Should an advance in call money be
immediately followed by an advance
in time money, then the monetary
situation would be more or less
dangerous.

At the present time there is a fair
public interest in the stock market,
and although the public has sold a
great many stocks short, careful
judges of the public commitments are
on the long side. The market has
apparently reached a trading position
where a movement either way of
three or four points might take
place. Probably the greatest factor of
influence will be the immediate
future will be the U. S. Steel
Corporation's report of earnings for
the first quarter of this year. This
report will be made public on the
30th of April. If these earnings ex-
ceed \$25,000,000 for the quarter it
will be considered a favorable report.
However, the best judges do not
anticipate earnings of more than
\$21,000,000 will be shown.

Wall Street's opinion is that Presi-
dent Taft will have enough votes to
control the Republican Convention in
June, but Wall Street anticipates that
the President will not force his own
nomination in view of the disaffection
in the Republican ranks, but will
throw his influence to some one else.
Among the Democratic candidates
Champ Clark is preferred to Governor
Wilson. But Governor Harmon would
be more acceptable than any of the
others.

Deafness Cannot Be Cured

by local applications, as they cannot
reach the diseased portion of the ear.
There is only one way to cure deafness,
and that is by constitutional medicine.
Deafness is caused by an inflamed con-
dition of the mucous membrane of the
Eustachian tube. When this tube is inflamed
you have a running ear or imperfect
hearing, and if the inflammation is not
checked, it will spread to the middle ear.
Deafness is the result, and unless the in-
flammation can be taken out of the tube,
the hearing will be destroyed forever, and
cannot be cured. Our medicine cures the
inflammation which is the cause of deaf-
ness, and restores the hearing. It is a
simple, safe, and effective remedy, and
will cure you in a few days. Send for
a free trial bottle. Write to Dr. J. C. Heston,

Not every woman buys her Spring and Summer Millinery before Easter. Knowing this, the millinery rooms are just as full of the new and beautiful in trimmed hats now as before the event that is, to a large extent, "proving day" for spring styles.

Today We Have Hats at \$3.50, Worth \$5, at \$5, Worth \$7.50

They will take the attention of graduates, brides-to-be and leaders of fashion.
